

SILK

Social Solidarity Economy
International Learning and
Knowledge Community of Peers

OECD
Global Action

Promoting
Social & Solidarity
Economy Ecosystems

The SILK consortium works on the internationalisation of Social and Solidarity Economy enterprises and organisations through international peer learning and knowledge sharing activities.

Internationalisation is the process involving multilateral flows of goods, services, financial resources, information, skills and knowledge within and between organisations, and across countries. The issue of internationalisation for SSE organisations has witnessed recent developments, that the SILK project, with the work of its consortium, aims to analyse

Peer Learning

The SILK Project organises high-level Peer Learning targeted for practitioners and policy-makers on the issue of internationalisation of SSE enterprises and organisations. Check out the selected cases on silk-project.info

Dissemination events

From international to smaller public events and network forums of the consortium, the SILK project is organizing and taking part in various kind of events.

Learning objectives of the project:

Develop internationalization of SSEs organizations

Implement Peer Learning, which includes:

- Practical and targeted research
- Activities to foster organisational learning geared for key stakeholders (public authorities, individual organisations and networks, etc.)
- The development of a community of peers

Facilitate a significant step forward in building more resilient SSE ecosystems.

Visit silk-project.info for more information.

The SILK project is one of the six Peer Learning Partnerships of the OECD Global Action, funded by the European Union's Foreign Partnership Instrument.

Coordinated by Diesis Network, it gathers a consortium of important SSE organisations from EU countries, USA, Canada, Brazil, Mexico, India and Korea.

This project is funded by the European Union
