

Partnership for non-formal Education to Adults in pursuit of the peaceful Community Empowerment

Empowering Lithuanian and European organisations working with migrants to build their capacity to promote social inclusion and integration in the labour market, by facilitating inter-community dialogue and ensuring upskilling of the participants

The project aims at creating an international share of knowledge, best practices and educational tools. In the long-term it will create strategies, deploying the methodologies and tools of the social economy to create peaceful societies

Main Activities

- **Research study on Social economy contribution to Peacebuilding:** WISE and social and economic inclusion of migrants as a response to the Ukrainian crisis
- **Collection of best practices** in the field of migrant social and economic inclusion across Europe
- **Peer Learning activities for social economy organisations** to identify challenges, needs and potential solutions for migrants inclusion and peaceful community empowerment
- **Handbook containing best practices, methodologies and approaches** bridging social economy activities and the creation of peaceful communities

Funded by
the European Union
