### Mapping European Social Economy: Employment, Social Dialogue and the European Pillar of Social Rights

The MESMER+ project aims to establish an up-to-date in-depth mapping on activity and representation of social economy players – both from the employers' and employees' side – within social dialogue institutions and various industrial relations settings in nine countries: Belgium, Bulgaria, France, Italy,

Co-funded by  
the European Union

## Main aims and outputs of MESMER +

- **Title:** Mapping European Social Economy: Employment, Social Dialogue and the European Pillar of Social Rights
- **Main aim:** to establish an up-to-date in-depth mapping on activity and representation of social economy players – both from the employers' and employees' side - within social dialogue institutions and various industrial relations settings on national level
- **Countries covered:** Belgium, Bulgaria, France, Italy, Ireland, North Macedonia, Poland, Spain and Sweden.
- **Main activities:** research: national reports and a mapping study, three European workshops, nine national policy labs, dissemination activities (website, videos, launch event, final conference)
- **Working language:** English
