Solawi Ackerilla

15 hectares for solidarity farming in Taucha near Leipzig

Together with you, we have permanently secured 15 hectares of land near Sehlis for ecological, fair and social agriculture. Now you can help us finance the purchase of land and lay the foundation for our community-supported agriculture.

We are **Ackerilla**, a gardening collective from Leipzig. Together with the Kulturland cooperative, we bought 14.65 hectares of land in Sehlis in the north-east of Leipzig. We have been converting the land that was previously farmed conventionally to organic since the fall - together with the members of our community-supported agriculture (Solawi).

€240,000

of €240,000 for land

Additional goal: €160,000 for further cultural land projects in the region and Saxony

€77,462

of €200,000 for our infrastructure

co-campaigning

Kulturland coop

- “global“ player
- providing personnel, capital, internet platform
- press releases
- find people to buy coop-shares

Ackerilla

- “local“ player
- interviews, presentations, street fairs
- become known
- find people to invest via loans

Thank you
