

WHAT IS THIS PROJECT ABOUT?

Fostering green social entrepreneurship in rural areas, ensuring women empowerment and sustainable inclusion in the labour market, and a fair and sustainable twin transition.

The project supports **Cameroonian VET providers and social economy enterprises** in consolidating the cooperation between private and public stakeholders in the field training on green and digital skills for the twin transition.

It focuses on key competences such as (social) entrepreneurship, promoting **green social entrepreneurship as a tool for sustainable development in rural areas.**

WHICH ARE THE MAIN OUTPUTS?

- ▶ Booklet on local policies and best practices from Cameroon, EU and Western Balkans
- ▶ Capacity Building programme on green social entrepreneurship for women in rural areas
- ▶ International and local awareness raising campaign on female, green social entrepreneurship

WHICH ARE THE TARGET GROUPS?

- ▶ Women in rural areas
- ▶ Educators
- ▶ VET providers
- ▶ NGO workers
- ▶ Community leaders
- ▶ Policy makers
- ▶ Other key actors in rural communities

the European Union

WHICH ARE MAIN OBJECTIVES?

► **Improve the capacity of VET providers from Cameroon** to provide innovative, blended learning opportunities for green, digital and social entrepreneurship skills.

► **Enhance the opportunities for female economic and social empowerment** and promote gender inclusive entrepreneurial practices in rural areas.

► **Support transregional share of knowledge**, good practices and blended learning methodologies for the twin transition **between the EU, Western Balkans and Sub-Saharan Africa**.

► Support the cooperation between local organisations, local public bodies, (social) enterprises and European organisations in the EU, Western Balkans and Sub-Saharan Africa in **designing and implementing VET opportunities for sustainable and inclusive job creation and inclusion in the labour market**.
